¹Developmental English is required for those determined by exam. No credits are received for this remedial level course though it will be considered as three clock hours towards a student's need for 16 academic credits.

²Chapel is required for all full-time students. There are four chapels per week, equivalent to a total of four clock hours. No credit is received for this requirement.

*Denotes non-academic credits. Only academic credits are included in the minimum requirement of 16 credits for each semester.

Note: Credit hours and clock hours are the same unless stated otherwise in the course description.

After one year of study, the student chooses one of the following majors:

Ministerial: This major is recommended for those who aim to become pastors, assistant pastors, or youth pastors. Virtually every area of church life and ministry is discussed.

Missionary: This major is designed for those who wish to become involved in the great task of world evangelization or cross-cultural ministry. In addition to Bible training, this major provides instruction in missiological issues.

Christian Education: This major strives to equip those who desire to work in various areas of the church's Christian education department, including but not limited to the following: the Christian school, Sunday school, youth groups, and Bible studies.

Note: A student must choose only one major. Curriculum and schedule requirements do not afford a double major.

Students receive a "Cornerstone" certificate upon satisfactory completion of 32 credit hours, a "Discipleship" certificate upon the satisfactory completion of 64 credit hours, and a diploma upon the satisfactory completion of any one major.
